John Mighntons JUMP program is changing the way math is taught, and his powerful math workbooks give children the tools they need to master this crucial subject. These workbooks follow the current student worksheets used by JUMP tutors and classroom teachers, including: an introduction for parents and caregivers that clearly explains the thinking behind the program and provides hours of activities, worksheets carefully designed to enable children to move from one success to the next, a glossary of math terms, and a selected answer key.
