Not illustrated. 1913 edition. Excerpt: . with a machete. But since these beams with the ends burned off and the backs cut away are still very heavy to carry, and also because the Indians frequently see very little of the large sums expended for such work, they generally end by leaving one or two beams in the temple or throwing them away on the road, as the Indians themselves have very complaisantly told me! After all that has been said here it would seem advisable to examine the Bernoulli beams in the Museum of Basle and find out whether any of the important parts have been burnt away at the ends, whether the carving is intact as to breadth, that is, whether any of the beams are missing. If everything is as it should be, it must be admitted that Dr. Bernoulli was extraordinarily fortunate in his undertaking. It...
