To comply as far as possible with the arrangements of that committee, in devoting two evenings to this subject, I propose at this first meeting and in this paper to direct your attention to the evils of this deformity, and a discussion of the relative merits of surgical operations and mechanical appliances for their remedy; and the subsequent meeting to a description of the means used in the construction and adaptation of artificial palates. An experience of over six years, and the successful application of artificial vela for nearly thirty different patients, coining from various parts of the world, has enabled me to form quite decided opinions on this subject; and it is my desire at these meetings to impart all the information I possess, and has been my endeavor to adapt this paper to the most ordinary comprehension. The attention of both surgeons and dentists has been directed much more to this deformity within the last few years than formerly; and as the cases presented grew more manageable with increasing skill, the interest in them and the number of eases seemingly also increased. Whether there be...
